

**EFFECTIVELY TREATS**

**BACTERIAL INFECTIONS OF**

# RHEUMATISM LUMBAGO, NEURITIS, SCIATICA

**Myositis, Fibrositis, Spondylitis.**

Where these diseases are of bacterial origin sufferers should try the Vaxos treatment, which is deservedly famous throughout Australia. Now available throughout New Zealand, Vaxos No. 2 is a Warren Crowe type oral vaccine specially prepared in Bacteriological Laboratories in Australia under Government licence. Vaxos is not a patent medicine but a scientific treatment which when absorbed into the bloodstream, neutralises the bacterial toxins causing the complaint. Relief may be rapid. Pains and joint swellings quickly diminish. Muscular elasticity returns. In many cases continued treatment builds up long-lasting immunisation against recurrence of the complaint. Vaxos is safe and simple to take—just a few drops in water each day. Don't continue to suffer needlessly. Ask your chemist for VAXOS to-day.

## TWO OTHER VAXOS TREATMENTS FOR BACTERIAL INFECTIONS

Vaxos No. 1 for Catarrh, Common Colds, Bronchitis, Antrum and Sinus Troubles, Tonsillitis and Middle Ear Troubles.

Vaxos No. 3 for Boils, Pimples, Carbuncles, Acne, Dermatitis, Eczema, Impetigo, Septic Sores, and most Skin Infections.

"Vaxos" costs only 2/- per bottle containing 24 c.c.'s, which quantity is sufficient for several weeks' treatment.

Vaccine Products (Aust.), 582 Little Collins St., Melb., Aust.

**RCA PRESENTS**

**What's New**

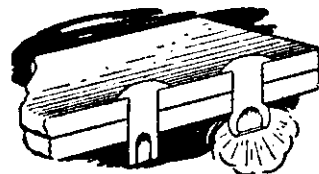

**Radio heat builds propellers!** Previous slow methods of drying and sealing sections of laminated wooden propellers now give way to the RCA method of instantaneous processing by radio frequency waves!

**The Magic eye of television:** The "Iconoscope," an RCA invention that makes possible Electronic Television. By means of hundreds of thousands of photo-electric cells it "picks up" images—transmits them through the air on radio waves. While all of RCA's production now serves the United Nations, wartime experience promises still better products for you when Peace comes!

**'Exploding' Rivets by Radio!** Rivets with explosive charges in their tips are now detonated with radio frequency energy. This new RCA method can greatly speed and simplify industrial construction.

**RADIO CORPORATION OF AMERICA**

HEADQUARTERS: RCA BUILDING, RADIO CITY, NEW YORK.
