

DO YOU KNOW?

In Palestine, a man who has spaced teeth and blue eyes is supposed to possess the power of the evil eye.

Lady Hamilton's dentist recommended "a straight toothbrush with stiff hair fixed in the end, somewhat like a painter's pencil." Even with a toothbrush like that, Lady Hamilton's smile was a winner. So what couldn't you do with a modern toothbrush and Kolynos Dental Cream! Kolynos sweeps away ugly stains... leaves your teeth white and sparkling.

Kolynos has been awarded the Gold Seal of the London Institute of Hygiene for consistent purity and quality.

Pliny says: "Take the first tooth shed by a child and use it as an amulet to protect him from pain."

King James I. of England had decayed teeth and was forced to bolt his food. As a result, he suffered from chronic indigestion most of his life. Do you know what causes tooth decay? Those tiny particles of food that get jammed between your teeth. But you can sweep away those food deposits with just half an inch of Kolynos Dental Cream on a dry brush.

Powder or cream—which do you prefer? We prepare Kolynos as a Tooth Powder for all who might like it that way. Has all the famous qualities of Kolynos, of course.

In England, 1600, a wise woman in Lambeth sold for a penny a charm of Saint Apollonia which was supposed to prevent toothache for the life of the wearer! Toothache is caused by dental decay—that's why you should keep your teeth antiseptically clean by brushing them with Kolynos after every meal.
