# TROPICAL MADNESS?

## VI-MAX in the PACIFIC

Millions of pounds of VI-MAX have gone to the Pacific for the Fighting Services. Here is proof of the value of vitalising, non-heat VI-MAX.

The idea that porridge should not be served in hot weather has been discredited. In the first place pre-cooked, ready-to-eat cereals cannot replace porridge because they have lost essential vitamins.

Secondly, VI-MAX porridge is non-heating and should be served in all households all the year round.

Another VI-MAX advantage is that VI-MAX has less "crude fibre" than whole wheat. "Crude fibre" contains a decalcifying agent. VI-MAX, therefore, provides more vitamins through added wheat germ and more calcium for bone and teeth building.

COARSE or FINE at your grocers at pre-war prices. D. H. Brown and Son, Ltd., Moorhouse Avenue, Christchurch.

## CODE MESSAGE

To the radio enthusiast this complicated symbol signifies a radio valve known as a Duplex Diode Pentode.

Perhaps you are not interested in the name or the highly complex functions of such a valve. But you are concerned that your radio should continue to

work well—and that you don't have too many valve replacements. Therefore, ask your serviceman to "Revalue with Radiotrons."
