

AT THE FIRST SNEEZE

*Quick!—Do this to help
prevent many colds*

When the first sneeze or snuffle warns of trouble to come, put a few drops of Vicks Va-tro-nol up each nostril.

Helps Nature. Va-tro-nol is a medication made specially for the danger area in nose and upper throat where most colds start. It spreads swiftly through the hidden passages, relieving irritation, and rousing Nature's own defenses, helping to prevent the development of many colds. Keep Va-tro-nol handy... use it early.

Clears Stuffy Nose. And remember... even if the head is badly clogged by a cold, Va-tro-nol brings breathing comfort quickly.

VICKS VA-TRO-NOL
