This ointment fights for you

Some disorders of the skin are directly caused by germs: others are not. But all sore and erupted places—through exposure, scratching or other causes—are particularly liable to germ infection which aggravates their condition and hinders their recovery. The grave danger of septic development in skin complaints can hardly be overstressed.

It is to fight and destroy the germs of skin infections that Dettol Ointment has been made. This ointment is active. It kills germs. It contains the germicidal principle of 'Dettol'.

Here, then, is an ointment which fights for you. It sinks deeply into the tissue, calms the irritation and, because it is actively germicidal, destroys the germs of septic infection. From the moment you apply it and whenever you renew it, this ointment goes on working to keep you free from reinfection while the process of clean, safe healing goes steadily on.

Dettol Ointment is recommended specially for the treatment of:—Boils, Whitlows, Carbuncles, Impetigo, Syphilis (Barber's Rash), Herpes (Cold Sores), Septic Eczema. In the treatment of obstinate cases of Varicose Ulcer (Bad Leg), success has been remarkable.
