PAINS AFTER EATING ?

Then Try This !

Take one teaspoonful of De Witt's Antacid Powder in a little water, then . . . relief! Mark how quickly pain and discomfort are eased. Usually one dose is sufficient to relieve after-meal pains, especially when they arise from conditions of excess stomach acidity (*hyperacidity*). When food lies like lead on your stomach, let this grand remedy get to work for a while and then see how much easier you feel.

Yes, De Witt's Antacid Powder does relieve indigestion quickly, but it does more than that. Excessive stomach acidity—the cause of pain—is neutralised so that your food can be comfortably digested. Then, the irritated stomach is soothed and protected, and your next meal will not be an extra

burden on an already upset digestive system. But to make certain, a timely dose of De Witt's Antacid Powder before you eat and all should be well.

Always have a canister of De Witt's Antacid Powder in the house, ready for use the moment it is needed. After all, if pain is avoidable the sensible thing is to avoid it. So let De Witt's Antacid Powder take the pain out of eating for you.
