

ADVENTURES OF The KWIKO KIDS

SAYS KATE TO KEN "HERE IS THE CURE
FOR MARKS & STAINS IN FURNITURE;
AND SCRATCHES TOO, WE WILL ABOLISH
BY USING KWIKO VENEER POLISH."

VP.112

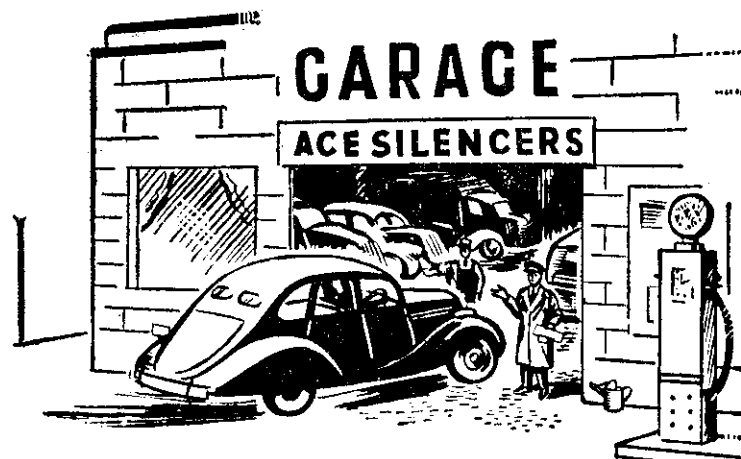

Like a modern Aladdin's lamp, Kwik Veneer Furniture Polish will give you "New Furniture for Old". It is perfectly harmless to the finest polished surfaces, as it contains no abrasives, acids or wax. Gives a protective finish which will not finger-mark easily. Take a tip from the Kwik Kids. Use Kwik Veneer Furniture polish and note how scratches, marks and stains disappear.

For best results, apply the smallest quantity of Kwik Veneer Polish on a cloth, rubbing over the entire surface. Then polish with another clean, soft cloth. The results will dazzle you. Look for the arrow sign on Kwik Veneer Furniture Polish and the thirty other Kwik household products.

DRIVE IN and replace that worn silencer with an **ACE**...

When your muffler is rusty and leaky, you lose vital protection from poison exhaust gases. When they escape, these gases, bearing deadly Carbon Monoxide, seep up into the car where you breathe them, and cause accidents—even death. Old clogged-up silencers restrict the flow of exhaust gases, and you lose precious miles from every gallon. If your car needs a new silencer—ask your garage to fit an "Ace"—the correctly designed silencer, with welded seams.

CORRECT TYPES FOR EVERY MAKE AND MODEL.

SCIENTIFIC WEIGHT DISTRIBUTION

—Means Safety!

Service riders know they are safe on B.S.A. Motor Cycles and they know why. The keynote of safety is weight-distribution. That gives him confidence in his machine and that makes him and his B.S.A. the famous, reliable team—tested on so many battle fronts. Under the shadow of these battle-tested machines your post-war B.S.A. is being developed. Their success in service is a sure sign that, when your turn comes, you'll be able to ride in supreme safety.
