The care of the Eyes in Industry

There are many men and women, now working in factories for the first time, who suffer from headaches and tired eyes. Here are a few tips which will help them.

- (1) If you are provided with goggles, wear them.
- (2) Try to work with the light on the job and not on eye level.
- (3) Get as much fresh air as you can.
- (4) If you get a foreign body in your eye, report at once to the First Aid department. Don't rub the eye.
- (5) Bathe your eyes night and morning with an approved medicated lotion. Optrex is used by thousands of workers. It helps keep the eyes healthy and comfortable.
- (6) If headaches persist and your eyes continue to ache, water or irritate, consult a Qualified Practitioner.
