SIGN LANGUAGE

To those who can read a radio circuit this symbol signifies a valve known as a Double Diode. In your broadcast receiver, such a valve will be doing the important job of "full wave rectification". However you do not really need

to know all this to get the best possible service from the valves in your radio. Simply ask your serviceman to "Revalve with Radiotrons".

There's
DANGER
in a WORN SILENCER

A very real danger—because when a silencer is rusted through and full of holes, the exhaust fumes, containing deadly carbon monoxide gas, are liable to seep into your car, and cause a serious accident—even death. Old clogged-up silencers restrict the flow of exhaust gases, affecting engine efficiency and robbing you of precious mileage. What you should do is drive to your nearest garage and have one of the new "Ace" Silencers fitted.

CORRECT TYPES FOR EVERY MAKE AND MODEL.
