Kills Germs, then Heals

Dettol Ointment is healing. It not only cools the irritation but it sinks deeply into the tissues and actively destroys the germs which cause septic infection. From the moment you apply it, it will go on working to keep you free from reinfection, while the process of clean, safe healing goes on.

Dettol Ointment is recommended specially for the treatment of Boils, Whitlows, Carbuncles, Impetigo, Sycosis (Barber's Rash), Herpes (Cold Sores) Septic Eczema, and Varicose Ulcer.
