till done. Gas regulo 7; electric 425deg. to 450deg., top low, bottom medium. When baked remove the loaves from the tins and return to the cooling oven for a few minutes to crisp up. You will soon get a knack of your own in breadmaking. The mixture for this recipe **MUST BE A SOFT DOUGH**. Mix it mainly with a spoon, then flour the hand and lift the dough out of the mixing bowl into the tin. It does **NOT** leave the bowl dry and clean like moist bread. Have tin well greased. The amount of liquid varies a little—according to the flour.
