EXPECTANT MOTHERS

Lactagol Ensures Breast-Feeding

Regular use of LACTAGOL strengthens and builds up expectant mothers in preparation for easy, natural breast-feeding later. It also increases the quality and nutritive value of the milk and maintains the supply of breast milk throughout the entire feeding period. For proof read this outstanding testimonial, written by a grateful mother who has proved the value of LACTAGOL.

34 Tennyson Avenue,
Takapuna, Auckland,
March 22nd, 1945.

Lactagol Ltd.,
Dear Sirs,

I have just returned home with Baby after visiting the Plunket Nurse. Baby is now 3 months old and when Nurse measured him today she said he was the perfect baby. He was 7-lb. at birth and has been gaining 13-oz. on an average weekly. He is now over 14-lb. I have to thank Lactagol for this as I have been taking it regularly. I have five other children besides and could not breast feed any except the first. Also I am feeling so well myself and have picked up wonderfully after a long and difficult confinement. So once again I must say thank you for Lactagol. I always recommend it to any of my friends with new babies. You may use this letter.

I remain, Mrs. Les. Jack.

LACTAGOL has helped thousands of Mothers and Babies; let it help you—and your baby.

LACTAGOL

Sold by all chemists.

Prices 2/6, 4/9, 8/6 (Economy size.).
