The uplift that really LIFTS

If you've had the aggravation of an uplift letting you down after its first tubbing, you'll thank your lucky stars for Wonder-Lift. Its 3-way lift stays bracing to the end.

On the underside, over each bosom, three straps are arranged tripod-fashion; these adjust the uplift as you wish. It is a 3-way lift and brace which also cleverly allows for movement: two of the straps keep the uplift taut, the third, elastic, lets you move freely.

This explains how it is you feel braced beautifully in your Wonder-Lift, without red ridges in your shoulders in painful evidence!

It's a 'must' now, in the scarcity of elastic, to try on your Wonder-Lift before you buy. Take the trouble, and whether you're big or whether you're small, you'll find your Wonder-Lift a joy to wear.

1. Points to the elastic that gives the ease.
2. Points to the ribbons that brace. (Dotted lines show where they pass beneath the bra.)
3. Admires what is, in effect, an uplift from beneath.
