## SIGN LANGUAGE

To those who can read a radio circuit this symbol signifies a valve known as a Double Diode. In your broadcast receiver, such a valve will be doing the important job of "full wave rectification". However you do not really need

to know all this to get the best possible service from the valves in your radio. Simply ask your serviceman to "Revalve with Radiotrons".

## FOR SAFETY CHECK YOUR SILENCER

A leaky, worn out silencer is a menace, because deadly poison exhaust gases are liable to seep into your car, and cause a serious accident or even death. If your silencer is corroded and clogged, it restricts the flow of exhaust gases, affects engine performance, and robs you of precious miles. The safest and most sensible thing to do is drive to your garage and ask to have a brand new Ace silencer fitted—the correct type specified for your particular make and model of car.
