DETTOL BRAND OINTMENT

Many disorders of the skin are either caused by germs, or else become germ-infected. It is to fight and destroy the germs of skin infections that Dettol Ointment has been made. It contains in active form the germicidal principle of "Dettol", the modern antiseptic.

Dettol Ointment is healing. It not only cools and calms the irritations, but it sinks deeply into the tissue and actively destroys the germs which are the cause of septic infection. From the moment you apply it, the process of clean, safe healing goes steadily on.

Dettol Ointment is recommended specially

for the treatment of Boils, Whitlows, Carbuncles, Impetigo, Sycoals (Barber's Rash), Herpes (Cold Sores), Septic Eczema. In the treatment of obstinate cases of Varicose Ulcer (Bad Leg), success has been remarkable.
