

Pretty
as a
picture...

but a failure in a close-up

Don't be a long-distance beauty... give your teeth faithful care with Colgate Dental Cream.

Thorough brushing, night and morning, sends an active, penetrating foam right into the crevices of the teeth, searching out and removing every trace of decaying food particles and acid deposits which cause so much dental trouble and bad breath.

No. 14

Make a Turban with his Hankie

Grafton HANKIES
can take the toughest strain and wear.

When you're cleaning the house, protect your hair by making a turban out of your husband's Grafton handkerchief. All you do is to fold a square, corner to corner, but not quite in half. Hold the triangle at the back of your head with fold at the top (illus. 2). Gather one folded corner in each hand, cross corners over one another in front, tucking in ends. Twist and tuck in the corner at the back (illus. 3).
