Virol *its value and use*

VIROL is a concentrated food prepared from Malt Extract, specially refined Animal Fats, Eggs, Sugars (including Glucose) and Orange Juice, with added Mineral Salts, Vitamins, etc.

VIROL is designed to provide, in carefully-balanced proportions, those essential food factors (not Vitamins alone, but also many others just as important), which are

most likely to be deficient in the rest of the diet.

VIROL is very palatable, easily and completely assimilated, and throws no strain upon the digestive system. In infancy and childhood, in illness and convalescence—in fact, in all conditions where a supplementary food is required—its growth-promoting and restorative properties are of proved value.
