## PROBLEMS OF MIDDLE AGE

Are you one of those people who all through life have been as "fit as a fiddle" and yet middle age has brought its problems and its changes, resulting in a general deterioration of health? Nothing really serious, you may think—yet you haven't got that zest for getting things done that you had in the past. You feel "nervy" and generally run down. It's time you had WINCARNIS! WINCARNIS is a full-bodied wine with other nourishing ingredients added—it's a real food for the blood—for every part of the body. It's quick in action too. You'll feel better after the first glass—and rapidly you'll start to feel your old self again and prove that life is every bit as enjoyable in middle age as it is in youth! Ask your chemist for WINCARNIS to-day.
