***My home is
secure***

***My Mortgage
can't last longer than I do—***

Like most men, I have a mortgage on my home but it doesn't worry me—my home is secure thanks to Life Assurance. It is so arranged that if I should meet an early death, my Life Policy will automatically wipe out my mortgage. It's good to know

that my wife and family are thus protected; their home is *theirs*, come what may.

Did *YOU* know that life assurance can be used for this purpose and that thousands of homes in New Zealand are already protected in this way?
