

*It's the **BRAND**  
that tells the  
Quality — **NOT**  
the S.A.E number*

The S.A.E. number only indicates the fluidity grading of an oil — it has **NOTHING** to do with quality. An inferior oil, even if of the correct fluidity grading, only leads to frequent and costly engine trouble . . .

**FIRST-**  
*Ask for*

Don't be an "S.A.E. buyer"! Always play safe! **FIRST** ask for Mobiloil—The World's Quality Oil — and *then* state the grade recommended for your car.

**THEN-**  
*name the grade!*
