Special DX Programmes: Every Sunday a special DX programme is broadcast from Radio Australia at 12.20 p.m., and 5.25 p.m., giving the call signs, schedules and addresses, together with information on the frequencies heard in transmissions. These DX programmes are heard from VLA5 (15.32 mc/s), VLC9 (17.84), at 12.20 p.m.; and from VLC9 (17.84), VLA5 (15.32), VLB8 (21.60), at 5.25 p.m.

## Radio in Japan

THROUGH the New Zealand Broadcasting Unit in Yamaguchi, Japan, Kiwis in the B.C.O.F. are given a full radio coverage of sport as well as other entertainment. When the 2nd N.Z.E.F. Brigade boxing championships were held last month, ringside commentaries were provided for listeners, and the final of the inter-formation Rugby championship, at Yamaguchi, when the 34th Australian Brigade beat 2nd N.Z.E.F. by 16 to 11, was also broadcast. This commentary was recorded for the use of Station WLKS, the B.C.O.F. station in Kure.

According to a report from Ulric Williams, officer-in-charge of the unit, members of the New Zealand Concert Party have been heard from the station, and several talks have been given, including one by Crosbie Morrison, the Australian naturalist. Gazettes from Station 22B, which go to Japan by air, are included in the Sunday evening programmes. The New Zealand Concert Party spent 10 days in Yamaguchi last month, playing to local troops and visiting outlying units in the area. The concerts are being well received by Australian troops as well as Kiwis.

*"I told her my Trade Secret"*

IT HAPPENED THIS WAY

I'M HOPELESS AS A COOK. HOW DO YOU GET SUCH EXCELLENT RESULTS?

THAT, LADY, IS DUE TO EXPERIENCE AND A PHOSPHATE RISING AGENT.

DO ALL BAKERS USE A PHOSPHATE RISING AGENT?

TEN OUT OF TEN - IT DOESN'T LOSE IT'S STRENGTH IN THE MIXING AND IT DOESN'T ACT TILL IT'S IN THE OVEN.

COULD I LEAVE A PHOSPHATE BAKING POWDER MIXTURE STANDING WHILE WAITING FOR OVEN SPACE?

YES-IT IMPROVES YOUR BAKING IF YOU DO, ESPECIALLY WITH THE NEW FLOUR. BUY A TIN AND TRY IT YOURSELF!

I'M GLAD I TOOK THE BAKER'S ADVICE. PHOSPHATE BAKING POWDER IS EASIER TO USE AND ALMOST HALF THE PRICE OF OTHER TYPES!

*Use* **PHOSPHATE BAKING POWDERS**

Albright & Wilson's Pure Food Phosphate is used in all leading brands of Baking Powder and is distributed throughout New Zealand by IMPERIAL CHEMICAL INDUSTRIES (N.Z.) LTD., Wellington and Auckland.
