

## A Vital Factor in the Development of Primary and Secondary Industry

Since the days of the early pioneers, the Bank of New Zealand has helped the Dominion's primary and secondary industries grow and expand. Today, with more than 250 Branches and Agencies, it offers wise counsel in the sound use of bank credit to all types and sizes of business, both farming and commercial.

The Bank of New Zealand Manager would be pleased to discuss, privately and confidentially, how Banking service can help solve your particular business or personal problem.

## How Ovaltine helps the Digestion

**D**ELICIOUS 'Ovaltine' is a scientifically balanced combination of Nature's best foods — malt, milk and eggs — and provides concentrated nutriment in a form exceptionally easy to assimilate. Without digestive strain this nourishment is rapidly absorbed to bring quick reinforcement of nerve-strength, energy and vitality.

A cup of 'Ovaltine' is very simple to prepare. When made with milk it has, owing to its special properties, the important advantage of rendering the milk much more digestible and assimilable, as well as more palatable. For this reason 'Ovaltine' has proved an outstanding factor in extending the consumption of milk—particularly among children—and its concentrated nourishment increases the nutritive value of milk to the greatest possible degree.

*So superior is the quality of 'Ovaltine', that, throughout the war, 'Ovaltine' was requisitioned for the use of British, Australian and the United States services.*

*Drink delicious*
