*British
made Brimar*

The vacuum valve is a very important and integral part of all radio broadcasting and television equipment. These delicate electrical valves, perform much the same function as do ordinary radio receiving valves but on a much larger scale.

Successful experiment and development in Electronics, Radar and Television make S.T.C. foremost specialists in the radio field. This knowledge and skill goes into the manufacturing of all Brimar Radio receiving valves.

Always specify British made Brimar, the valve with the world-wide reputation for strength and reliability.
