**FOR SAFETY
CHECK YOUR
SILENCER**

A leaky, worn out silencer is a menace, because deadly poison
exhaust gases are liable to seep into your car, and cause a serious
accident or even death. If your silencer is corroded and
clogged, it restricts the flow of exhaust gases, affects engine
performance, and robs you of precious miles. The safest and
most sensible thing to do is drive to **YOUR GARAGE** and ask
to have a brand new, **ACE** silencer fitted—the correct type
specified for your particular make and model of car.

=ACE=

SILENCERS FOR EVERY MAKE AND MODEL OF CAR
