

*"Sure...I'm
bottle fed!"*

"Right from the start, when mother found she couldn't feed me herself, I throve 'on the bottle'... you see, she was careful to make the cow's milk digestible by adding Robinson's 'Patent' Barley.

"And when she weaned me from the bottle she wisely put me on to Robinson's 'Patent' Groats. Am I proud I'm Robinson's fed!"
