

Mrs. Rutgers Duke

A youthful and lovely member of a famous American family, Mrs. Rutgers Duke has rich, shining hair, sparkling eyes and the most adorable satiny-smooth skin. She makes Pond's Two Creams her regular complexion care. "It's simple to have a smooth, soft skin," she says, "with Pond's Creams." . . . Pond's Cold Cream for thorough skin cleansing and freshening—and Pond's Vanishing Cream, the lasting powder base and skin softener.

Why the World's Loveliest Women Prefer Pond's

It's because Pond's Two Creams together are a complete complexion care—and such a simple, effective way to keep skin at its loveliest. So follow these two quick steps to Pond's Beauty:

One—night and morning and any time during the day when you want to change your make-up, pat snowy-white Pond's Cold Cream generously over your face and throat for thorough skin cleansing and freshening.

Two—always before you make up, smooth on a gossamer film of fluffy, fragrant Pond's Vanishing Cream. It melts away little roughnesses—your powder goes on evenly—and keeps its radiant freshness for hours.

Pond's Cold Cream, the thorough skin cleanser; Pond's Vanishing Cream, the reliable powder base. At all chemists, chain and departmental stores in attractive jars.
