

IT HAPPENS WITHIN *two seconds—*

Within two seconds, radar pulses travel the incredible distance of 372,000 miles in epic flights between Earth and Moon...

MAKE THIS
GLASS-OF-WATER
TEST YOURSELF

Drop a Bayer's Aspirin Tablet into a glass of water, to see why it gives such quick relief from Headache. What it does in the water, it does when you swallow it: starts to disintegrate within *two seconds*—thus, is actually ready to go to work almost instantly.

Within two seconds after you take it for Headache, Bayer's Aspirin actually starts to go to work to bring

fast pain relief!

The astonishing 2-second speed of Bayer's Aspirin comes from **THREE** important steps—not just **ONE**!

1. The aspirin powder is tested and compressed into "giant" tablets, 8 times larger than normal.
2. These "giants" are crushed back to powder, sifted through an exceedingly fine screen.
3. Then this fine aspirin powder is compressed into the

Bayer's Aspirin Tablets you know so well.

These three steps ensure the 2-seconds disintegration which brings you such quick relief from Headache. If pain persists, see your doctor. He alone should advise you about persistent pain.

IF YOUR DREAMS DON'T COME TRUE

Remember...

COLGATE DENTAL CREAM
- cleans your breath
while it cleans
your teeth!

"HERE'S WHY: Colgate Dental Cream has an active, penetrating foam that gets into the hidden crevices between teeth — helps to clean out decaying food particles and so removes the cause of much unpleasant breath. Colgate's soft polishing agent cleans enamel thoroughly, gently, safely!"

Remember!
Twice a day use
COLGATE DENTAL
CREAM
