

The Mosque of Muhammed Ali, Cairo, is considered one of the minor wonders of the world for its size, the magnificence of the glass lamps within, and the lavish use of Oriental Alabaster and marble which adorn it. And another fine achievement is Camfosa, the modern disinfectant for all household uses. Anti-septic qualities help protect your children against infection from scratches and cuts. A few drops of fragrant Camfosa in the bath will be found wonderfully refreshing.

All Chemists and Stores: 4oz. size only available, 1/8.
