I Lost
My
Smile

—until I found

STERADENT

I was afraid to smile, because I was so terribly conscious of my false teeth with their tell-tale stains and dullness. Then I discovered Steradent, and how easily and thoroughly it cleans and sterilizes them. My teeth are really attractive now.

Steradent is safe for all dentures, including Acrylic Resins. Dissolve a capful of Steradent in half a glass of warm (not hot) water.

Immerse your dentures overnight, or for 20 minutes while you dress. Rinse well.
