What a friend!

if YOU have

INDIGESTION

When after-meal "pains" take all the pleasure out of eating, what a friend in need is De Witt's Antacid Powder! It neutralises gastric acidity so quickly that even after one dose you may feel the pain dispersing and your disturbed stomach beginning to settle down. But it does more than ease immediate distress. It soothes and protects the inflamed stomach lining so that your next meal will not further irritate an upset digestive system.

So if you always wonder *dare I risk it?* before eating the things you like, turn to De Witt's Antacid Powder for the help you so obviously need. Get the sky-blue canister from your chemist to-day.
