

# What must a motorist do at a Pedestrian Crossing?

Be courteous. Do not try to bluff  
the pedestrian into giving way  
by approaching at speed.

Observe these six rules:

- Be ready to stop at every crossing.
- Reduce your speed.
- Give way to pedestrians in the crossing  
on your side of the road.
- Be alert for pedestrians stepping from  
the footpath.
- Do not overtake at pedestrian crossings.
- Stop for School Patrols.

Issued by the Transport Department.

# DANDRUFF?

## LISTERINE ANTISEPTIC

# Quick!

The treatment is simple and delightful. Simply douse Listerine Antiseptic on the scalp and massage vigorously with the finger tips. Untold numbers of men and women make this a regular "must" for their hair.
