

"I told you it's important, Mum!"

We agree that Johnson's Baby Powder is just the thing for my tender skin, Mum, and at last you're in a position to realise that Johnson's Baby Cream is essential too.

Remember now what a baby has to put up with? Not too comfortable at times, is it? Well Johnson's Baby Cream can help ease a baby's lot—prevent what my Doctor calls "Urine Irritation", ease chafes and skin irritations and together with Johnson's Baby Powder prove the perfect combination of smoother-uppers.
