# Designed for the Job!

### GET THE FACTS FROM AN AUSTIN OPERATOR

Your local Dealer will gladly give you the names of Austin Truck owners in your district. Then you can check up for yourself the indisputable facts about Austin ruggedness, Dependability and bed-rock operating costs.

From radiator to rear axle each Austin Truck is specially designed and built for heavy duty truck work. The Austin 6 cylinder O.H.V. truck engine develops ample power for maximum loads with exceptional pulling power at low speeds. Austin Trucks are building up an amazing record of payload performance, of sheer Dependability and capacity to tackle the toughest jobs, that surpasses anything hitherto known by most truck operators.

The Austin 6-cylinder O.H.V. engine is specially designed for truck use and is not an adapted passenger car engine. Develops ample power for maximum loads with exceptional pulling power at low speeds.

Cab in semi-forward position brings centre of gravity well forward thus distributing weight evenly over all four wheels. Allows longer platform space with minimum overhang, shorter wheelbase with smaller turning circle.
