

Brilliant *NEW* Design!

The Incomparable **ULTIMATE** 'Challen'

NEW ZEALAND'S
FIRST RADIO with
PIANO ACOUSTIC
CABINET!

ULTIMATE proudly
announces a really unique
achievement — the first
radio with a cabinet de-
signed on the basis of
piano construction.

A highly efficient 5 valve
broadcast chassis is housed in
this special cabinet which features the principles of "tone
projection" and "vibration deflection," the result is a
superb tone of remarkable natural quality. The cabinet
is dignified and beautifully finished . . . the whole is a
radio you will be really proud to own.

The last word in Radio-
ULTIMATE
