## Those joint pains

and how De Witt's Pills  
may help you

Those unexpected joint and muscle pains may mean that your kidneys are not doing their work properly. Their task is to filter and cleanse the bloodstream. Impurities are then expelled via the urinary tract. If through slack or sluggish kidney action these waste matters are allowed to remain in the body, they may give rise to all sorts of rheumatically mischief.

De Witt's Pills can be confidently recommended to all people suffering as a result of sluggish kidneys. Their action is gentle, cleansing and beneficial.

Prices  
3/6 and 6/6
