The finest way to clean ALL dentures

(including new
acrylic resins)

So as not to be a danger to health, your dentures must be perfectly clean. You can best do this by leaving them overnight, or while you dress, in a solution of Steradent, prepared as directed on the tin. Steradent cleans and sterilizes where brushes cannot reach . . . leaves your dentures fresh, clean and sterile. You can use it with every type of denture (including acrylic resins) with absolute safety.

Steradent
CLEANS AND STERILISES
