

# Don't Dazzle

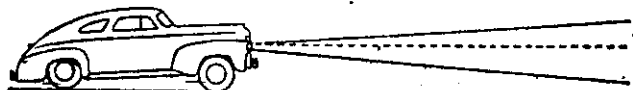

Dazzle is dangerous, but it is a preventable hazard of night driving. Adjust your headlights correctly and dip when approaching other traffic.

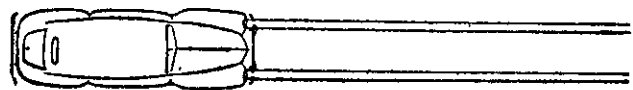

## Adjust Headlights Correctly

The main light beam, under any conditions of loading, must not rise above the horizontal.

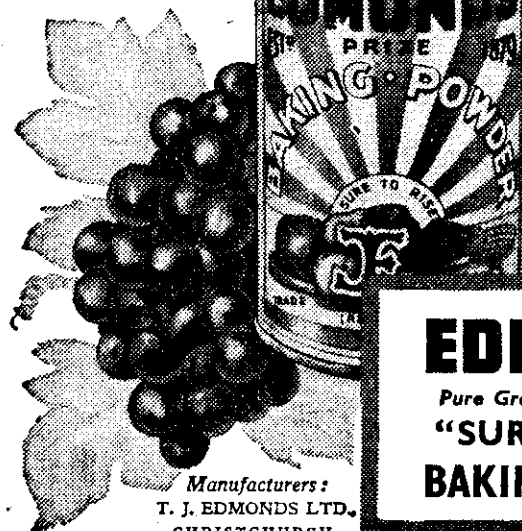

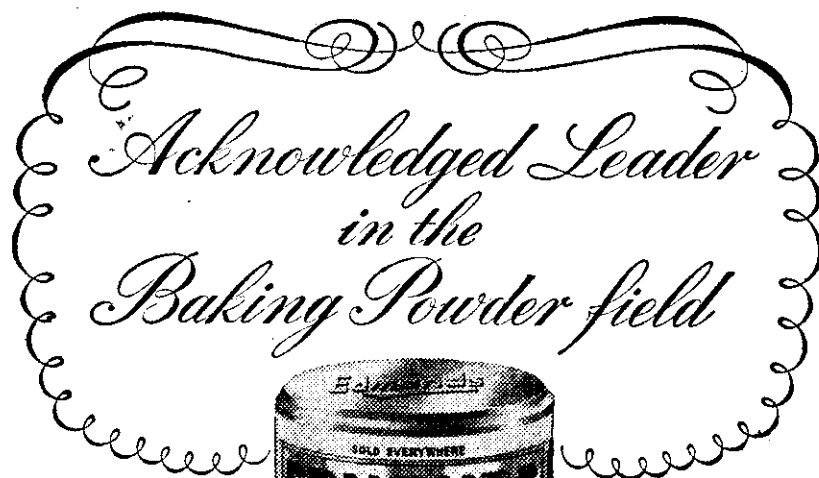

Remember that a load in the back seat or on the carrier, may throw the beam above the horizontal and allowance must be made for this factor.

Main light beams must not deflect to the right. They must project straight ahead or to the left.

Check your adjustments against the garage wall with the back seat loaded. Do not drive with faulty lights — you are a menace to others on the road.

Issued by the Transport Department.  
3.9

For nearly three generations Edmonds "Sure-to-Rise" pure grape cream-of-tartar Baking Powder has set a standard of excellence. Its unfailing quality and even consistency, its utter dependability, has made it the foundation of perfect baking, and built for the name of Edmonds a reputation for quality which is unassailable.
