Stiffness in joints and muscles

Many of those aches, pains, stabs and rheumatically twinges that handicap both work and pleasure may have a common origin—impurities left in the system as a result of sluggish kidneys.

De Witt's Pills are specially compounded to assist the kidneys in their function of filtering waste matter and so cleansing the bloodstream of all impurities. It goes without saying that this process of filtration and elimination is vital to the health of the whole body. De Witt's Pills also have a soothing and cleansing action on the urinary channels.
