For a luxury shave try this—**before** you lather rub Q-TOL SKIN EMOLIENT on your face. Just a simple trick, but what a whale of a difference it makes to your face appeal! You lack confidence, feel ashamed when you're only half-shaved—but when you're Q-TOL shaved you command respect, feel good, look good. So start to-morrow to shave the Q-TOL way. Simply rub in Q-TOL before and after shaving. It softens the beard, lubricates the razor, gives you a quicker, better shave—tones up your skin, keeps your face fit. A bottle lasts a long time.
