HOW MUCH DO YOU KNOW?

HERE are seven questions, one for each day of the coming week and bearing on some item in one or other of that day's programmes which appear in this issue of *The Listener*. You can check up your solutions by referring to page 55, on which will be found the correct answers.

SUNDAY: Which opera takes its name from the daughter of a fanatical Brahmin priest, and centres round his hatred of the English invaders of India?

MONDAY: Which piece of music is named after and based on the personality of a knight, gentleman, and soldier come to "a green old age, mellow, frank, gay, easy, corpulent, loose, unprincipled and luxurious"?

TUESDAY: In what opera did an Irish tenor, Michael Kelly, make a big hit on the first night by doubling two parts, including that of a stuttering old judge?

WEDNESDAY: Who was the artist, who, on being refused a fee of £4,000 to make a record of "Tipperary," agreed to payment on a percentage on sales of the record and is said to have netted £50,000 as his share?

THURSDAY: What great musician once publicly embraced Sir Henry Wood and told those present, "This is the man who has taught me everything"?

FRIDAY: What is the professional name of Florence Fawaz, who owed her "big chance" at Covent Garden to the late Sir Landon Ronald?

SATURDAY: What broadcasting and recording artist spends his spare time riding on horseback "on Ikla Moor 'baht 'at" (on Ikley Moor without a hat)?

Recorded Personalities In Caricature (10)

WHO IS HE?—He was born in Scotland on December 6, 1888. Began as an electrical engineer, and became a comic singer at local concerts. He gave up engineering to go on to the stage and became famous in the music-halls in his school-master sketch. He introduced the character to the BBC listeners in 1922, to the screen, and, what is more important to local radio listeners, to gramophone recordings. He has held a pilot's "ticket" for years, having started flying in 1910 with a glider; and he once ran a couple of 'planes of his own. He used to be a five-handicap golfer, too, but work doesn't leave much time for either of these activities now. He does a lot of writing and is very keen on photography and amateur cinematography. Astronomy, of course, is in a class by itself—more of a religion than a hobby.
