With the Branches

WELLINGTON this month celebrates its seventh anniversary. Some of the original members are still as enthusiastic as they were when the branch was first formed. One member has missed two meetings only.

The BBC in America

A "Radex" correspondent stated that while listening at his home in Florida he heard a station on 1500kc/s broadcasting war news. The announcer had "a decided British accent," and said "here in London" several times. A footnote explained that American stations were now permitted to re-broadcast the BBC news, the Federal Communications Commission having recently ruled thus.

Frequency Change

2YC Napier has changed frequency from 760 to 750kc/s.

"Early Morning Americans"

In last week's issue mention was made of the unusually early reception of these broadcasts. A further addition is WCKY, 1490kc/s, at 11.30 p.m. KMBC, 950kc/s opens at 10.30 p.m. It was stated that KNX, 1050kc/s, began at 2 a.m., but the correct time is 1.30.

WJR, 750kc/s, "The Goodwill Station," can be heard when 2YH ceases transmission.

The Mexicans were also in evidence about 11 p.m. when XET, 690, was noted.

Evening Reception

KFYR	550kc/s	5 to 5.30
KHQ	590	About 6
WIP	610	5.30 to 6
KFRC	610	About 7
XET	690	About 6
WWL	850	4.30 to 5.30
WCAE	1220	5.0
KPAC	1220	5.30

(Later on Saturday: A Request Session)

WCOA	1340	4.30
KLO	1400	When 2ZA off

As usual, from 1460 to 1490kc/s it is found that the "regulars" KSTP, WLAC, KOMA, KFBK, and WCKY provide good signals between 5-5.30 p.m. KROD, 1500kc/s, KROY on 1210, and KRE, 1370, have monopolised the "hundred watt" channels.

Shortwave News

EQB, at Teheran, Iran, is operating on 6155kc/s from 4.30 to 7.30 a.m. with a power of 14kws. Talks and news in English can be heard at 6 a.m., and from 6.30 a.m. a dance programme of recordings. Signal strength is usually quite good. Under the call of EQC it is on 9680kc/s from 1.15 to 4.30 a.m., and as EPB on 15,100kc/s from 7.30 to 9 a.m.

The experimental station at New Delhi, India, is again in operation in the late evenings on 11,830kc/s relaying the broadcast station's programme. The call of this transmitter is VUD4.

ROUND THE WORLD BY RADIO

NEWS BULLETINS IN ENGLISH

THIS list is revised regularly, with the co-operation of the New Zealand DX Radio Association. However, it must be noted that, although all care is taken to include only regular broadcasts, in the present state of international affairs some details may become inaccurate.

NEWS FROM DAVENTRY

THIS is a selection of the news transmissions best heard in New Zealand. Listeners should note that the times given are for news bulletins only, but that these are only items in fuller programmes. The features other than news in the BBC Empire Service are announced by Daventry for each following week every Sunday at the following times: 2.30 p.m., 5.30 p.m., 11.0 p.m., and on Mondays at 2 a.m., 6.30 a.m., and 10 a.m. (our time). BBC announcements, unless otherwise stated, are given in Greenwich Mean Time, which is 1½ hours behind New Zealand Standard Time.
