

"EVER So Much BETTER"

That's what you'll feel like saying the first time you listen to your radio after you have attached—

The AERITROL

This wonderful little contrivance (a New Zealand idea, and New Zealand made) will separate interfering stations, reduce noise level and interference, increase volume of weak stations, eliminate the need for an aerial, and enable you to control volume from powerful local stations. If any of these conditions are marring your enjoyment of the radio programmes, get an AERITROL and ensure perfect reception.

Installed in a few minutes without tools

Perfectly safe! Uses no electricity! Easily connected to any type of receiver, old or new, battery or electric. Increases volume equivalent to an extra valve.

Send For One NOW!

Try it out for seven days, then, if you are not assured that it improves your radio, return it and we will refund your money.
