

# 1941 H.M.V.

## REFRIGERATORS

bring **3-WAY SAVINGS...**

### **1 SAVE ON LOW COST**

H.M.V. Refrigerators are priced with the lowest, yet provide utmost spaciousness, protection and dependability.

### **2 SAVE ON RUNNING COSTS**

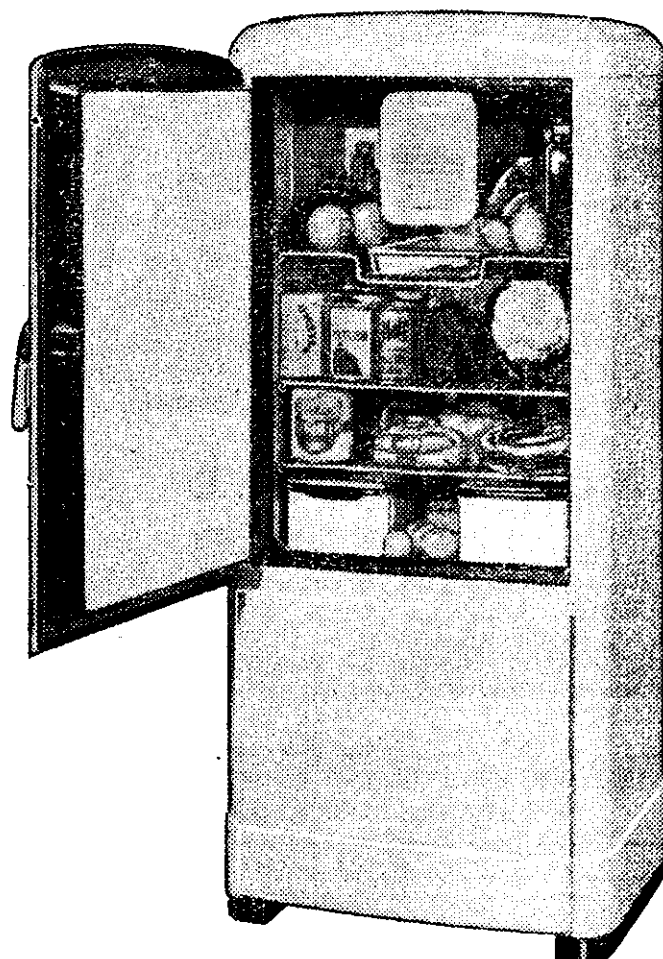

The exclusive Silent Circulator produces all the cold you need on a ripple of current . . . and is utterly dependable.

### **3 SAVE ON FOOD COSTS**

You not only save perishables which would otherwise spoil, but you preserve the full flavour and wholesomeness of all your food.

**S**AFE food preservation and adequate storage facilities are two main reasons for buying an electric refrigerator. However, there is another important consideration—economy—the cost per cubic foot of owning and operating your refrigerator for the many years it should serve you.

The H.M.V. Refrigerator for 1941—as for the dozen successful years of its history — is powered by the exclusive lifetime Silent Circulator cold-making unit — offers more features and greater storage space — welcomes the most critical examination and comparison.

DEALERS EVERYWHERE. Ask for a demonstration, or write to His Master's Voice (N.Z.) Ltd.; Wakefield Street, Wellington, for full details.
