★ **"RED STREAK,"** the story of a magnificent horse, is a new serial to be heard from 2YD, starting this Friday, February 13. It is the story of an English race-horse breeder who goes to America with his daughter. A fire which destroys his stables and house shortly after they arrive is investigated by a reporter who has just been inquiring into the death of Phar Lap. The reporter and the Englishman's daughter fall in love, while the only survivor of the fire, a colt named Red Streak, is stolen. From this point, the story follows the Australian and New Zealand racing career of the horse.
