

# Train in your spare time to become a **WIRELESS OPERATOR**

**For AIR FORCE, NAVY,  
ARMY, THE MERCHANT SERVICE  
And For THE PEACE TO FOLLOW**

## The Value Of Druleigh Training

The value of Druleigh training may be judged from the careers of hundreds of Druleigh graduates holding interesting and well-paid positions all over the Empire. They are to be found in key positions in the Navy, the Air Force, the Army, the Mercantile Marine; as technicians in factories, broadcast stations, and in direction-finding units, as well as in commercial air services. Their field is almost limitless.

Mr. H. D. Mack, 25 years' British Admiralty experience all over the world, author of the Druleigh Courses of Instruction in Radio.

## New Methods Of Instruction

The Druleigh courses of correspondence instruction in Radio have been specially written for New Zealand students. They have been found much better than any series of text books, even including the Admiralty Handbook, for non-essentials have been eliminated and they are written in terms easily understood by the student with a sixth standard education.

Every course of training is divided into easily graded sections, each of which contains a set of examination questions which the student answers and sends into the College for individual marking and criticism. This enables Druleigh tutors to keep an individual check on the progress of each student, and to offer any additional help and guidance which may be thought necessary from time to time.

## Special Home Study Course In Fundamental Principles Of Radio Engineering And Operating

To meet the needs of those wanting a sound knowledge in the fundamental principles of radio engineering, transmission and reception, Druleigh has brought out a special course of home study instruction anyone with a sixth standard education can follow.

It gives the student a knowledge sufficient to qualify him for the theory section of the Radio Amateur's Examination, and the Third Class Sea-going Operator's Certificate. It also covers the radio theory required by those wishing to qualify for entrance to the Radio Divisions of the R.N.Z.A.F.

With this course of instruction as a basis students may, by paying the additional fee, continue their studies for the First Class Operator's Certificate, the Technical Certificate in Broadcasting, Advanced Direction Finding and Television.

The total fee with application, covering all instruction papers, marking of work, and the answering of all additional questions, is £6. Never before has a New Zealand student been offered such value in instruction and instruction papers. Only a College with the resources and experience of Druleigh could do this.

## What these men have done you can do . . .

Woodbourne Aerodrome.

I have received notification to-day that I have passed the test and now hold the rank of Leading Aircraftman. At present there is no higher radio examination in the R.N.Z.A.F. and as it brings a £50 a year rise in salary I think the effort was worthwhile.

D.H.R.

R.N.Z.A.F., Levin.

I might state that if it had not been for your excellent coaching, I would not now be in the Air Force as a Wireless Operator, as they lay particular stress on one's technical qualifications. Wishing your College every success, I remain,

F.E.W.

OAMARU.

I passed my "Amateur operator's" examination with 70 per cent for the theory paper and 95 per cent for the paper on the regulations. I also passed in the Morse test.

R.T.C.

DUNEDIN.

I am writing to let you know I have landed a job. I started at 4YA this morning.

J.A.

**The Druleigh Radio Course covers these and many more subjects: FIRST-CLASS OPERATOR :: AIR FORCE OPERATOR :: AMATEUR CERTIFICATE :: RADIO SERVICEMEN TECHNICIANS AND ENGINEERS :: DIRECTION FINDING :: TELEPHONY**

## Text Books Not Available

Students who enrol for the Druleigh Radio Course do NOT have to buy extra text books. In any case, to-day these are mostly unobtainable. The Druleigh Course is absolutely complete within itself. You may write Druleigh experts at any time regarding any radio subject, and their advice will come to you immediately as if you were securing Personal Tuition.

## Success Is Assured

With the Druleigh Home Tuition Course you are not held back by the slowest man in a large class. Each student makes rapid advancement according to his own ability, and receives the personal advice of the instructors. Thus a complete grasp is secured of every phase of the subjects covered.

## After The War

The peace to follow the war will be the "Aviation and Radio" Age. The production of aircraft will go on, superseding all other means of transport. The development of Direction-finding, Remote Control, Blind Flying, etc., will continue to progress, and thousands of important, well-paid positions will be offering to TRAINED MEN in all spheres of Radio, Meteorology, Direction-finding, Wireless Operation, International Telephony, Television, Research, Technical Branches, and Manufacturing.

This is YOUR OPPORTUNITY to train NOW in the FIELD OF THE FUTURE, to lift you out of the crowd, not only for the "duration," but in the Peace to follow.
