BREAST OR BOTTLE?

Best or second best? Shall baby be handicapped in those early vital days which have such tremendous influence upon his later life? Breast milk has no rival and every mother may breastfeed if she wishes.

"Lowfield", Monkwear Road, Oswestry, Shropshire.

Dear Madam,

I have filled up one of your sample cards today for some samples of Lactagol to be sent to my patients. I shall be out of practice for a while now as I am pregnant myself and eagerly awaiting the arrival of my own babe, after a very long wait indeed. Lactagol has never failed me in my most difficult cases and I cannot speak too highly of its benefits. Out of two hundred cases, the only five artificially fed cases I have had have been due to disease of the mother, when breast feeding hasn't been attempted.

I include a tin of Lactagol on my list and recommend it during pregnancy always. I am at present taking it myself, and perhaps you would let me have one or two samples for my own use. Many thanks for your always very prompt dispatch of samples.

Oliver Lawrence, S.R.N., S.C.M.
