The Modern BED WARMER

Plug into hotpoint or light socket for five minutes. Disconnect and put into your bed—that's all, and the "Monarch" Bed Comfort will retain a comfortable heat under the bed clothes for 5 or 6 hours. Compare that with messing around with the old type of hot-water bottle. Contained in metal case and complete with cover and plug and cord. Cost about 1d. per week for current.

STOPS Man-Made Interference!

Is your radio enjoyment marred by crackles, bangs, splutters and spurts? Man made static may be picked up by the aerial, or come over the power lines. If it is the latter you can cut it out, and have noise-free reception by fitting an "ENSIGN" LINE FILTER between the wall plug and the radio set. Equally effective with A.C. or D.C. supply. Try it at our risk. See guarantee below.
