## MEANWHILE BABY STARVES!

While precious time is wasted seeking an artificial food that baby can tolerate he suffers semi-starvation during those early days which are so vital. Yet nature's food, breast milk in bounteous supply, nourishing, body-building and safe, can be made available for him simply by mother taking Lactagol.

"Lowfield", Monkmoor Road,  
Oswestry, Shropshire.

Dear Madam,

I have filled up one of your sample cards today for some samples of Lactagol to be sent to my patients. I shall be out of practice for a while now as I am pregnant myself and eagerly awaiting the arrival of my own babe, after a very long wait indeed. Lactagol has never failed me in my most difficult cases and I cannot speak too highly of its benefits. Out of two hundred cases, the only five artificially fed cases I have had have been due to disease of the mother, when breast feeding hasn't been attempted.

I include a tin of Lactagol on my list and recommend it during pregnancy always. I am at present taking it myself, and perhaps you would let me have one or two samples for my own use. Many thanks for your always very prompt dispatch of samples.

Olive Lawrence, S.R.N., S.C.M.
