## THREE YEARS OF FILMS

### Complete Index Of "Listener" Gradings

AS a matter of general interest, and also because a good many old films are being revived these days and new ones are frequently not screened in the country until some time after our criticisms appear, we have been asked to find space for a complete list of all the films reviewed in "The Listener" since our grading-system was introduced in November, 1940. This we now have pleasure in doing, but since it cannot be done again we suggest that readers who are interested should keep this page for reference.
