

★ **More Mystery** ★

**MR. MYSTERY** (his first name is a mystery too) must be one of the fastest investigators of all time. The radio series in which he appears allows only fifteen minutes for the finding of the body, the motive, and the person who committed the foul deed. Entitled *Meet Mr. Mystery* the feature consists of dramatised detective stories, a complete one in each episode.

The private detective's first assignment comes when he is called in by the owner of a department store to find who murdered an important member of the staff. A cleaner comes under suspicion, but Mystery is not fooled by appearances. He's a part-time psychologist, and with a little phrenology (he's a conservative psychologist) he soon discovers whose bumps caused the bump-off.

An Artransa production, *Meet Mr. Mystery* includes in its cast the well-known radio stars, Aileen Britton (above), and Reginald Goldsworthy (below)—who plays the part of the detective—as well as Neva Carr Glyn, John Tate, Margaret Christensen and Alastair Duncan. The series starts from 1XH at 7.30 p.m., March 30. It is already playing from 2ZA on Mondays and Fridays.

best change to the **BRITISH OIL**

\* **5 times refined**

First—**DISTILLATION** to produce the 'fraction' particularly suitable for high grade lubrication.  
Second—**DE-ASPHALTING** to remove every trace of tarry material.  
Third—**SOLVENT EXTRACTION** to give the utmost stability and to minimise the formation of lacquer and gum.  
Fourth—**DE-WAXING** to give free-flowing properties at low temperatures, ensuring easy starting all year round and instant circulation.  
Fifth—**ACTIVATED CLAY TREATMENT** for maximum resistance to carbon formation.  
And then additives are introduced to keep BP ENERGOL fresh under severe working conditions and to clean and protect the engine.

Gain the benefits of the most advanced developments in lubrication—use BP ENERGOL, 5 times refined.\* It's the motor oil of outstanding quality, a product of British Petroleum and recommended by Rolls-Royce and leading motor manufacturers. BP ENERGOL reaches New Zealand with a world-wide reputation, and is available now at leading service stations and garages. Look for the BP ENERGOL sign. Ask for BP ENERGOL Motor Oil and complete Lubrication by ENERGOL.
